Subject: book wanted: Digital LOS radio links

does anyone have a copy of Townsends book Digital Line of Sight Radio
Links they would care to sell?

Feel free to respond via email.

thanks in advance
ernst

>73, keep up the good work! Fred Sober, AB6GQ

Now I THINK it was Bob (N6FRI), who replied with this...

>>*** Yes, Fred, keep up the good work. I'm glad that you are doing all
>>*** that you can to make Amateur radio packet boring.

A BIG QSL on the "boring" aspect, OM!

My OPINION is that the message "content" is just as important (if not more so) as the method by which the data is transferred. I LOVE the freedom of the Internet.

I have enough of a problem trying to keep my interest in advancing the amateur radio sota (via cooperative investment in packet infrastructure, TCP/IP/NOS, SS, etc) alive here in Wisconsin what with the total lack of interest by the vast majority of the AX.25 1200 baud beacon fanatics around here. Most just don't care about cooperative INVESTMENT (yes, this takes \$\$\$) in a high-speed backbone.

Now lets make that investment even LESS attractive by LIMITING the type of traffic to that typical, BORING amateur blather about the weather and your current health problems. I sware the FCC WANTS us to die! They'll then have even more spectrum to auction off.

There is a difference between BROADCASTING and POSTING AN ARTICLE so as to encourage intelligent discussion. While SOME packet posts are in poor taste (and approach broadcasting), many result in interesting discussion threads (and yes, a few flame wars).

BIG NEWS: people have different opinions on almost every topic. One of the advantages of living in a "free" country is the exchange of those ideas in an open manor.

Commercial telecomm looks better and better every day. Then again, I'm sure we'll see Internet regulated and censored soon enough.

Maybe those in rec.radio,pirate are right! ;-))

>This was found floating on the Amateur Packet BBS system. What do you think?

I think it's always in the benefit of the ARS when a clarification of the rules are made in advance to violation notices being handed out. All it probably took was for a few to stretch what was considered appropriate use of packet for this clarification to be made.

On the back of our license it says, in part, 'Operation of the station shall be in accordance with Part 97 of the Commission's Rules.' Our signature on the front binds us to this statement.

If someone has a problem with this 00 and this clarification, I hear

that packet might now be in use on the CB frequencies....

Our worst nightmare: The US Postal Service to run internet; 29 cents per article per recipient! This one message might ``...cost hundreds if not thousands of dollars to post to every machine ...'' [that'll sound familiar to UNIX users].

73 from Hawaii,
Jeff NH6IL

OH C'MON! I would thing THE WORLI could do better than a message like that,
have you ever heard of an RFC?????????

Took a look thru the RFC index, a grand total of 2 minutes work and here are
the references I have found...

1344 Implications of MIME for Internet Mail Gateways. N. Borenstein.
June 1992. (Format: TXT=25872, PS=51812 bytes)

1428 Transition of Internet Mail from Just-Send-8 to 8bit-SMTP/MIME.
G. Vaudreuil. February 1993. (Format: TXT=12064 bytes)

1521 MIME (Multipurpose Internet Mail Extensions) Part One: Mechanisms
for Specifying and Describing the Format of Internet Message Bodies.
N. Borenstein & N. Freed. September 1993. (Format: TXT=187424,
PS=393670 bytes) (Obsoletes RFC 1341)

1522 MIME (Multipurpose Internet Mail Extensions) Part Two: Message
Header Extensions for Non-ASCII Text. K. Moore. September 1993.
(Format: TXT=22502 bytes) (Obsoletes RFC 1342)

1556 Handling of Bi-directional Texts in MIME. H. Nussbacher. December
1993. (Format: TXT=5602 bytes)

1563 The text/enriched MIME Content-type. N. Borenstein. January 1994.
(Format: TXT=32913, PS=73543 bytes) (Obsoletes RFC 1523)

1641 Using Unicode with MIME. D. Goldsmith & M. Davis. July 1994.
(Format: TXT=11258 bytes)

1652 SMTP Service Extension for 8bit-MIMEtransport. Klensin, N. Freed,
M. Rose, E. Stefferud & D. Crocker. July 1994. (Format: TXT=11842
bytes) (Obsoletes RFC1426)

Oh but wait, we are Amateurs... we have to wait until The Almighty League
(tm) publishes it before it's legal to use. Where are the donuts?

: I need a source for ka9q nos . hereford org only has it in tar.z. I would like
: to get it in a zip file or some such. Any help would be appreciated.

The tar.z format is a gzip'ed tar file. Get gzip from SimTel. If you
don't have a MSDOS tar, then get that from SimTel too. That is, if
you can't find your zip'ed version.

Jim.
